

FASOLI GINO

In 1925, the grandfather Amadio was the pioneer of the farm. Back then he used to sell his wine to the best taverns in cities such as Verona, Vicenza and Padova, transporting it in small barrels on a horse-drawn cart. His sons Gino and Gigi, built on their father's experience the reputation of Fasoli Gino wines in other regions of Italy and abroad.

Together with the work of Amadio-Franco in 1966 and Natalino in 1971, this is the foundation from which this Winery has been able to grow. The first foray into organic cultivation came in 1980 and by 1984 all vineyards became organic. In 1990 they were A.I.A.B approved. Since 1925 Fasoli Gino produces white and red wines, coming from the lower Illasi valley, at the east side of Verona, which has a great vocation for oenological productions thanks to the type of terrains and its particular microclimate. The winery products are entirely made from organic farming, among which stand out the Merlot "Calle" and the Merlot "Orgno", the Soave Classico "Pieve Vecchia", the Amarone della Valpolicella "Alteo" and the Recioto di Soave DOCG "San Zeno".

“ORGNO” MERLOT ROSSO VERONESE IGT

Grape variety: 100% Merlot.

Characteristics: The Merlot vine was planted in the Orgno vineyard in 1978. Our aim was to determine the potential of our soil, hitherto planted with white wine varieties, for red wine. The first results were extremely promising. The Merlot vine took well to the area. Nevertheless, we waited 10 years before bringing it onto the market, as we were working to achieve the quality levels we believed were desirable.

The length of ageing in French oak casks varies from 12 to 15 months.

Drinking / Storage: This is a wine which is remarkably smooth, even when drunk young. We suggest that it is best drunk between 3 and 5 years from bottling, depending on the vintage. Store away from direct sunlight at a constant temperature of 15°C. Serve at 18°C.

Alcohol content: 17,50%

“CALLE” MERLOT ROSSO VERONESE IGT

Grape variety: 100% Merlot.

Characteristics: Grapes are harvested by hand, which enables us to select only the very best. The result is a wine of great structure and nobility, despite the young age of the vines. Once in the cellar the grapes are destemmed and then lightly pressed. The resulting must is transferred to steel vats for fermentation. Ageing in wood will last between 10 and 12 months, depending on the vintage. To allow for further development it is necessary for the wine to have some ageing in bottle before being sold.

Drinking / Storage: We first produced this wine in 2000. We suggest it be drunk between 3 and 5 years from bottling. Store the bottle in a horizontal position, away from sunlight at a temperature of 16,50°C. Serve at 17-18°C.

Alcohol content: 16,50%

Tasting notes: The wine is an intense ruby red and the bouquet has intense aromas of dried grapes. The spicy notes blend harmoniously with the aromas of ripe red fruits. The tannins are fine and persistent and balance the high acidity. The wine has a long aftertaste.

Matching: Ideal with stewed meat or rich pasta sauces, Sande also pairs well with mature cheeses. This is a wine that finishes an important meal in style and is perfect with a cigar.

Drinking / Storage: 16.5 % Vol. Serve at 18°C

“VALPO” VALPOLICELLA RIPASSO SUPERIORE D.O.C.

Grape Varieties: Corvinone, Corvina and Rondinella

Vinification: After harvest the best bunches are placed in small trays where they are left to dry for 20-30 days. Following the brief period of “appassimento”, the grapes are destemmed and pressed and the must is left to ferment in oak barrels for about 20 days. After the first fermentation, the wine is transferred to 500lt casks where it fines for 4 months. The wine is then added to the skins of the Amarone (once the Amarone has been drained off) with some more dried grapes and left to ferment for a second time over a period of 2 weeks. This process increases the body and alcohol content of the wine. The wine is then drained off and left to mature for a year in 500lt and 225lt barrels.

Tasting notes: Deep ruby red colour. The bouquet is full of spicy notes such as cinnamon, cloves and black pepper. On the palate, the roundness and elegance come through. The tannins are elegant, the wine is full bodied and has fantastic balance. Alcohol content: 15.50%

“ALTEO” AMARONE CLASSICO DELLA VALPOLICELLA D.O.C.G.

Characteristics: During the grape-harvest, the more loosely-packed, well-ripened bunches are selected: the grapes are then left to dry for five to six months before pressing. Fermentation takes place in thermoregulated steel vats, after which the wine is aged in French oak casks for three years. After bottling, the wine remains in our cellar at a constant temperature of 15°C to allow further gradual ageing. The high alcohol content is accompanied by particularly marked bouquet of plums, blackberries and cherry syrup, with spicy nuances, reflecting the concentrated sugars resulting from the process of drying the grapes. The effect on the palate of the high alcohol level is mitigated by the strongly fruity taste, dry but very mellow, with clearly defined acidity and well-balanced tannins.

Drinking / Storage: We recommend that this wine should be drunk not less than two years after bottling; the bottles should be stored in a horizontal position in a dark place at 15°C. Open several hours before consumption and serve at 18°C. Alcohol content: 17.50%
